

The Caribbean Studies Student Union is comprised of every student enrolled in a Caribbean Studies course. CARSSU supports these students by giving them a space to share their life experiences, to discuss the implications of the themes they learn in the classroom, and to apply their skills and talents.

CARSSU works closely with the Caribbean Studies department, its faculty and its professors to ensure that the program continues to grow. By hosting engaging events we hope to reaffirm the Caribbean Studies program as an important part of the academic discourse. Each event is an opportunity to educate someone about the importance of the Caribbean in global history and politics. Each social is a chance to lime with new found friends.
