BOOKS FOR COLLEGE LIBRARIES SECOND EDITION

Compiled by the Association of College and Research Libraries, a division of ALA, with the support of the Council on Library Resources.

Six handsome paperbound volumes:

1. Humanities, 2. Language and Literature, 3. History, 4. Social Sciences, 5. Psychology, Science, Technology, and Bibliography, 6. Author, Title, and Subject Indexes

For this Second Edition, nearly 40,000 titles—four-fifths of those recommended by the 1959 ALA standards as the minimum for a four-year undergraduate library—have been selected and evaluated by subject specialists. Selections have been made from titles in the first edition and from works published between 1964 and 1972. An even greater breadth of sources has been used than before and even more stringent criteria have been applied to selections for this core collection.

Cataloging and classification information has been expanded. Titles are arranged according to Library of Congress classification and are entered in the main catalog only once. Each entry is a virtually complete MARC record: author, title, edition, imprint, collation, subject and other added entries, classification number, LC card number, and ISBN.
