INTERLIBRARY COMMUNICATIONS and INFORMATION NETWORKS

Joseph Becker,
Editor

The complete report on the conference on Interlibrary Communications and Information Networks, Airlie House, Warrenton, Virginia, September 28-October 2, 1970.

Sponsored by the United States Office of Education and the American Library Association

Interlibrary Communications and Information Networks presents . . .

- 31 outstanding papers on available and theoretical methods of extending library service capabilities.
- Definitive summary of plenary sessions, working group reports, and recommendations.

Interlibrary Communications and Information Networks confronts five major problems and proposes solutions . . .

1. Is there a true need for a national information network?
2. What are the functions and services best suited to a national network?
3. How rapidly can new technology be applied and used in network operations?
4. How will national networks affect libraries and information centers – socially, legally, and administratively?
5. What can be learned about a proposed national network from existing specialized networks.

Here is a work of lasting value to all librarians and information scientists concerned with the future of information services agencies.

Right, left, or center—you'll find something to disagree with in

THE AGITATOR

Edited and with an Introduction
by **Donald L. Rice**

A provocative and most complete anthology of writings by those the editor defines as pamphleteers—people who write not for monetary gain but to argue, cajole, agitate, and propagandize for social change.

Well-known names like Angela Davis, people you will never have heard of; white racists, black racists; supporters and opponents of sex education and drugs; arch-conservatives, radicals; new, old, good, and bad ideas—all are here.

As the editor writes: "Virtually all the organizations and individuals represented here won't like at least half of the company they are keeping." All need to be read for they symbolize aspects of the struggle for men's minds.

The "Unpackage Plan"

Now get titles from BOOKS FOR COLLEGE LIBRARIES on microfiche

BOOKS FOR COLLEGE LIBRARIES, published by the American Library Association, cites approximately 53,400 titles, and, as stated in the preface, is essentially "a list of monographs designed to support the college teaching program that depends heavily upon the library, and to supply the necessary materials for term papers and suggested and independent outside reading."

NCR/Microcard Editions is reprinting works cited in BOOKS FOR COLLEGE LIBRARIES on microfiche and offering them in subject-oriented groups based on BCL chapters. Each group is available separately and for each group there is a list of titles which is why we call it the "unpackage plan"—you know IN ADVANCE what you are getting, you choose the sections you need and those that fit your budget, and you receive immediate delivery. How?

1. **SELECTION:** Only titles already selected by qualified experts are included in our program. With a copy of BCL, anyone can assess the titles chosen, the basis of selection, and the qualifications of the selectors.
2. **NO LONG-TERM COMMITMENT.** Groups are small (\$200.00 to \$600.00) and independent of each other. A library can either buy or not buy each group depending on its needs and budget.
3. **EQUIPMENT.** Standard 4" x 6" microfiche are being used. Therefore, there is no need to purchase or lease new reading equipment. Since not more than one title appears on a fiche, titles can be filed in any sequence.
4. **DELIVERY.** Several groups are ready for immediate delivery.
HISTORY: Great Britain (BCL-1), AMERICAN LITERATURE (BCL-2), ENGLISH LITERATURE (BCL-3), HISTORY: United States (BCL-4), HISTORY: Europe (BCL-5), EDUCATION (BCL-6), POLITICAL SCIENCE (BCL-7), and more are on the way!
