Celebrate 15 years of Information Literacy

In January 1989, ALA released "The Presidential Committee on Information Literacy: Final Report," which is credited as marking the start of the information literacy movement. Join us at the Midwinter Meeting as we celebrate the 15th anniversary of this groundbreaking document.

The AASL/ACRL Presidential Report on Information Literacy 15th Anniversary Celebration will be held Monday, January 12, 2004 from 11:00 a.m.–12:00 p.m. This event immediately follows the ACRL President's Discussion Forum.

Never underestimate the importance of a librarian.

Okay, chances are you won't find a librarian on the ocean's floor. But librarians do play a vital role on any research team, enabling breakthroughs and real-time solutions. Whether you're choosing information for specific research communities or decision-support for professionals, Elsevier offers access to a world of information that knows no boundaries. Select from a wide range of scientific, technical and health information available in multiple media, including innovative electronic products like ScienceDirect® and MD Consult. After all, getting the right information into the right hands is critical to the success of any exploration. *Building Insights. Breaking Boundaries.™*
