

**27th International Congress of  
Applied Psychology Ψ**

11-16 July 2010 Melbourne Australia

[www.icap2010.com](http://www.icap2010.com)

International Association of Applied Psychology

Australian Psychological Society

**ICAP 2010** will be the first International Association of Applied Psychology (IAAP) Congress to be held in the Southern Hemisphere and the Australian Psychological Society (APS) is delighted to be hosting this prestigious, global event. The Congress will provide an opportunity for the international and national applied psychology community to come together and share ideas, knowledge and recent research at the Melbourne Convention and Exhibition Centre – Australia's premier conference venue. The Congress is expected to attract over 3,000 delegates from around the world.

## **CONGRESS VENUE**

### **Melbourne Convention and Exhibition Centre**

Melbourne Convention and Exhibition Centre – 1 Convention Centre Place, South Wharf, Victoria 3006; [www.mcec.com.au](http://www.mcec.com.au)

## **SCIENTIFIC PROGRAM**

A rich scientific program will be presented encompassing the global breadth and depth of applied psychology through symposia, papers, debates, electronic and short presentations, and an extensive range of workshops. The program will feature eminent keynote speakers and invited symposia organisers who are at the cutting edge of discovery in their fields. The Congress will cover a broad range of applied

psychology including topics such as: clinical, health, forensic, counseling and community psychology, cross-cultural and indigenous psychology, educational and developmental psychology, applied gerontology, organisational psychology, psychological assessment and testing, statistical methods, economic and political psychology, environmental and traffic psychology, sports psychology, applied cognitive psychology and clinical neuropsychology, psychological treatments, models of care, future developments in psychological services, consumers, other health professionals, ethics, and social issues.

**The scientific program will consist of:**

- State-of-the-Art talks covering key areas of applied psychology
- Invited Keynote Addresses by international experts
- Invited Symposia on specific topics of interest
- Divisional Presidential Addresses and Divisional Invited Address
- Submitted Symposia by groups of researchers
- Open Papers and Brief Oral Presentations organised according to common themes
