

FIVE PAPERS PRESENTED AT ISAHP 2014 ARE PUBLISHED IN THE INTERNATIONAL JOURNAL OF PRODUCTION ECONOMICS

Birsen Karpak
Associate Editor, IJAHP, Guest Editor, IJPE
Williamson College of Business
Youngstown State University
bkarpak@ijahp.org

Jennifer Shang
Guest Editor, IJPE
Area Head, Business Analytics and Operations
Katz Graduate School of Business
University of Pittsburgh

Eleven papers, out of 91 submitted, presented at the 13th International Symposium on the Analytic Hierarchy Process (ISAHP), held in Washington DC, USA, from June 29-July 2, 2014 were selected as candidate papers for the *International Journal of Production Economics* (IJPE) by the guest editors Drs. Birsen Karpak and Jennifer Shang. The following 5 out of 11 were able to go through the double blind review process handled by Dr. Peter Kelle, North-American Editor of *IJPE*, and are published.

- Akyildiz, B., Kadaifci, C. and Topcu, I., A decision framework proposal for customer order prioritization: A case study for a structural steel company
- Büyüközkan, G., Güteryüz, S., An integrated DEMATEL-ANP approach for renewable energy resources selection in Turkey
- Dangol, R., Bahl, M. and Karpak, B., Timing cooperative relationships with sequential capability development process to reduce capability development trade-offs
- García-Melón, M., Poveda-Bautista, R., Del Valle, M.J.L., Using the strategic relative alignment index for the selection of portfolio projects application to a public Venezuelan Power Corporation
- Mu. E., Carroll J., Development of a fraud risk decision model for prioritizing fraud risk cases in manufacturing firms

The Dangol et al. paper was not handled by the guest editors, Karpak and Shang, but was directly submitted to the *IJPE* editorial office by the author. This article is included in the list since it was also presented at ISAHP 2014.

We are very pleased that all of the papers went through the regular review process of the journal instead of publishing them as a special issue. We thank the authors for preparing high quality papers that were publishable in the *IJPE*, and are very happy to be able to serve the AHP/ANP community!
