

REVIEWER ACKNOWLEDGMENT 2008–2018*

It really goes without saying, nevertheless, a peer-reviewed journal is not possible without reviewers. Over the past decade, as a way to honor our reviewers, we have listed reviewers' names and affiliations at the end of every other volume. Below are those lists as originally available. Rather than compile one master list, here we provide each of the five lists as a way to recognize those who contributed their expertise time, after time, after time. Whether contributing one, two, three, or multiple reviews, the *JUME* Editorial Team members throughout the past decade are forever grateful for the vital contribution and service to the success of *JUME* and to the larger (urban) mathematics education community that each of you provided.

Thank you!

Sincerely,

The *JUME* Editorial Teams 2008–2018
