

Novelties in neuro-ophthalmology

The second conference entitled *Topical issues in neuro-ophthalmology* will be held in Iasi, at the Bucium Motel, during the period 07-09 April 2011.

The conference will also include a lecture addressed to residents and young specialists. Every year, the lecture will have a different topic, focusing on a different field of ophthalmology.

The conference and the lecture will be organized under the auspices of: "Gr.T. Popa" University of Medicine and Pharmacy of Iasi, the Romanian Society of Neuro-ophthalmology, the College of physicians, Ophthalmology clinic no. 2 of Iasi.

It is open to senior MDs, consultants and residents: ophthalmologists, neurologists, neurosurgeons, cardiologists/internal medicine specialists, general practitioners.

At the end of the conference the registered participants will be awarded a

diploma accredited by the College of physicians.

Each participant will be able to register, free of charge, his/her clinic/cabinet, on the www.informatiamedicala.ro site (the normal rate is of 50 Euro + VAT)
