Acknowledgments to Referees

We would like to thank all those who have participated as anonymous referees in the editorial process of *Transversal: International Journal for the Historiography of Science* in 2018. Without the expertise of the referees, it would be impossible to reach the editorial quality we pursue. This essential knowledge of the referees helped the editors accept the papers – or eventually reject some of them – as well as help the authors improve their works. Thus, referees accompanied and certificated all the editing process. We owe a massive debt of gratitude to them. The following is a list of scholars who have read in average two papers in 2018.
